PRICE TWO CENTS

VINE STREET IMPROVEMENT

About Completed.—City Council Arranges For an Inspection of the Work.

REGULAR SESSION LAST NIGHT

Bids For Sewer to be Advertised.—Little Business of Any Importance.

Mayor Swope being absent at last night's regular council meeting, Councilman Davison presided, doing the job gracefully and with satisfaction to all concerned. All councilmen were present.

Chairman Mills reported that he had examined the old Postlewaite mill on Vine street which had been reported unsafe. He found some openings needed closing and the engine room to be in unsafe condition. The owners had agreed to make repairs at once.

Councilman Hodapp of the park committee moved that fifty soft maples be set out in the park. The motion was defeated.

The work on the Vine street improvement being completed all but remedying a few defects, the council decided to meet at 4:30 Friday to inspect it and if it is accepted a meeting will then be held to allow the assessments. The street commissioner reported that nearly all the third ward ditches had been cleaned.

It was ordered that tile ditch on east side of Vine street near Laurel be changed as there was a high place in it that prevented good drainage.

The German Methodist church was granted permission to extend a tile ditch and hitch rack along its property.

The question of making an agreement with the L. & L. traction line to fill up low places on right-of-way on Fox Avenue by dumping, was dropped as it was reported the right-of-way was outside of city.

At the last special meeting there was a tie vote on the resolution declaring the benefits equal to the assessments for the proposed sewer on Bruce street between Pine and Poplar. Last night the matter was reconsidered, resolution passed and clerk ordered to advertise for bids on the work. They will be received at a meeting Nov. 11.

Councilman Sherman Day called attention to the fact that no license had been paid for operating the 5 cent show at the Majestic. Councilman Mills stated that no license had by consent ever been collected there, that the house had been built by public spirited men to supply a demand for a public hall, that it had never been a money maker having paid but one four per cent. dividend in twenty years, that the tower was used for the town clock; that if a license was collected the owners of the building would have to pay it and not the manager according to their contract with him. Councilman W. R. Day thought all show houses should be treated alike. After considerable discussion the matter was dropped without any action being taken.

E. E. Bollinger asked that the city join with property owners in clean-

ing and opening a ditch in the east part of the city. An examination was ordered.

LAST GAME OF SEASON. Crothersville Will Play Closing Game With Azalia Team.

The Crothersville "Blues" will play their closing game this season with the team from Azalia. The last game will be played on their home grounds and will be called at 2:15 o'clock. The Azalia team has a good record for the past summer, and a good game is expected Sunday. Crothersville has had a very successful season and will endeavor to close the year with a winning game.

This is the first season that the "Blues" have played under the new management, and the outcome has not been a disappointment. From a financial standpoint the year has been a success and arrangements are being made to secure several strong players from other teams.

Help Needed.

The family of Samuel Carpenter, whose home burned near Jaketown Wednesday afternoon is in urgent need of clothing and bedding. When the home burned, everything they had in the way of clothing, bedding, furniture, in fact all there was in the house was completely destroyed. They barely got out with what clothing they had on. There are six children, two boys about twelve and eight years old, and four girls ranging in age from one to ten years. Some of the neighbors are arranging to raise a purse to help Mr. and Mrs. Carpenter get a start again with some kitchen and household furniture, but there is urgent need just now for clothing for the children and some bedding. Any persons who have some good second hand clothing which they can give for the use of these children, or bedding, may bring it to the Republican office and it will be delivered to the family.

Republican Meeting.

An enthusiastic republican meeting was held at Freetown Thursday evening which was attended by a good crowd. The speakers were Judge M. Lewis and John H. Conner, of Seymour, who discussed the issues of the campaign. Isaac Smith was the chairman of the meeting.

WALSH ROADS WILL BE CONSOLIDATED

Indiana Southern And Chicago Southern Will Be Known as Chicago & Southeastern.

IMPROVEMENTS ARE PLANNED

Trustees Will Buy In Properties At Public Auction Which Will Be Held November 3rd.

Soon after the sale of the Southern Indiana properties which will be made at public auction November, 3rd, it is expected that the S. I. Division and the Chicago Southern roads will be consolidated under one management, and that the entire Walsh system will be operated as the Chicago and Southeastern Railroad. It is believed in railroad circles that the stockholders and bondholders of the present company will take over the properties of the road at the sale and that the present receiver, Myron J. Carpenter, will be elected president of the new company.

The road under the management of Receiver Carpenter, has been very successful and the business has grown until the equipment is inadequate to handle the traffic. Many improvements are needed all along the line, but these have been delayed until the final disposition of the road is made. When the new company is organized, however, it is expected that thousands of dollars will be expended in bettering the condition of the road so that the trains can compete in time with the other roads which are operated into Chicago.

According to the information which has been given out regarding the new company it is said that it has been decided to place the capital stock in a voting trust and that the reorganization committee will meet in New York next Thursday to select the trustees. It has been practically agreed that only \$4,500,000 of the authorized 5,000,000 of stock shall be issued at the start.

The reorganization committee expects to begin the improvements on the systems at once. Already new engines and cars have been ordered and will be ready for delivery shortly at the first of the year. It is said that Parlor and Pullman cars will be placed in service between this city and Chicago and that a strong competition will be offered for the through passenger traffic.

The court recently issued an order permitting the receiver to borrow \$325,000 to pay on receiver's certificates. The certificates will be due May 1, 1911.

THE NEW INTERNATIONAL Webster's Dictionary Appears With New and Greatly Enlarged Edition.

Webster's International Dictionary has long been recognized as easily the first of its class alike for the scholar and the unlettered man. A new edition, a volume of 2700 pages has just been issued as Webster's New International Dictionary. It is the latest edition in series which was begun by Noah Webster, and which has been steadily and consistently developed under the management of a single publishing house from 1843 to the present time. This book has been in active preparation for many years. For the past six years a large staff of editors has been at work; men carefully selected for their individual qualifications, and so grouped as to cover the whole field of practical lexicography; directed by chiefs who had gained experience in previous revisions of Webster; and reinforced by experts chosen from the highest authorities in literature and science.

In making the book, the search for new or improved material has ranged through the sciences and the centuries, through libraries ancient and modern, and through the newspaper, street, shop, market, household, and playground of today. The garnered outcome has been sifted, tested, compared, condensed, corrected, revised in "copy," revised in proof, amended and perfected again and again,—through a series of processes like that by which wheat starting from the harvest field arrives finally as breakfast rolls. The net result, compared with the old International, is measured in terms of quantity, a more than doubling of the words and phrases defined,—about 400,000 as against 170,000. The incorporation in the main vocabulary of several lists and tables given separately in the old book,—a rearrangement made in the interest of convenience and simplicity,—would somewhat affect this comparison, but would still leave a ratio of more than two to one. It is believed that the amount of information given is practically doubled.

WILL RECORD MAIL. Clerks to Count Number of Letters and Papers Mailed.

The following general order has been issued the mail clerks throughout the country:

"Commencing November 13 and continuing for seven days, a special count of both letter and paper mail will be made. Each clerk in charge will receive a blank to be filled out for each trip which is to show the total number of packages distributed, the number of pieces contained, the number of pieces distributed. Circulars received in sacks but distributed in letter cases should be counted as letter mail, but those received in sacks and distributed in paper rack, each piece should be counted. Tied up packages of single wraps to one office should be counted as one piece. Where clerks can reasonably do so it is expected that they will mark the number of letters contained in such packages as are tied out for dispatch to lines which but a single clerk is employed. It will be necessary to call upon clerks on their layoff to assist in this work and chief clerks are arranging for extra running which should insure the count being correctly made. The counting of the pieces of mail is going to be a hard proposition, especially at places where the post office forces are already overworked. The railway post office clerks are also going to have all the work they will be able to do."

CLOSE OF REVIVAL

Fifty Have Been Added to Christian Church Membership.

The revival meeting at the Christian church conducted by Evangelist Roy L. Brown, closed last night. Six confessed their Savior in the last invitation given by him, making a total of fifty added to the church during the twenty days' series of meeting. Evangelist Brown is a strong and forcible preacher and the church was fortunate in securing his services. He left for his home at Bellefontaine, Ohio, today and after a few days he will begin a meeting at Jacksonville. Elder Frank Ehane of Illinois, is here and will fill the pulpit over Sunday.

Death From Electricity.

Death from electricity may come

from paralysis of the heart or by stop-

page of breathing. In some cases af-

ter getting the shock the victim has

been able to get up, walk and talk

about his accident, then fallen stone

dead directly afterward. Sensibility

to electricity is very different in an-

imals. In Vienna experiments have

been made on ten different species.

A horse was killed instantly on 100

volts. The strength of the common

house current is about 100 volts. Dogs

are almost as easily killed. A rabbit

stood a much stronger current. But

the experimenters could not kill a

frog with all the current they had.—

Exchange.

How to Express It.

"I'm so sorry supper isn't ready,"

said Mrs. Dinsmore to her husband

when he came in. "I attended the

meeting of the sewing circle this af-

ternoon, and I couldn't get away."

"Hemmed in, were you?" asked her

husband.

GERRYMANDER ON
TAGGART'S CARDSHow Game of Democrats Work-
ed In Days of Old.

MINORITY RULED MAJORITY

Republicans Carried State For Pres-
ident in 1888, but Ten of Thirteen
Congressmen Were Democrats and
Indiana House Was Heavily Demo-
cratic—Nearly Half Voters Disfranch-
ised by Trick.

When Thomas Taggart says he is
the proper man to make the congres-
sional, legislative and judicial reapportion-
ments for Indiana voters in 1911,
it is only fair and right to consider
Mr. Taggart's qualifications for this
important task.

Mr. Taggart has the power, if he
elects his legislature and his state
ticket, to map the state to suit him-
self and to meet the political demands
of his followers.

Granting that Taggart controls—and
he gives daily proofs of that control
within the so-called Democratic organi-
zation, the voter is called on to de-
cide whether or not it is wise to per-
mit Mr. Taggart to go ahead and man-
age the election and the reapportion-
ments, as he manages the Democratic
campaign.

Indiana voters can judge of the
Democratic boss idea of a reapportion-
ment by Democratic acts that have
gone before.

The record shows that in 1891 the
Democrats gerrymandered the state.
They had the power to be fair or to be
unjust. They chose to be unjust.

Takes Place of Shotgun.

The Democratic gerrymander of
1885 was referred to in the press of
the time in denunciatory terms. Speak-
ing of the Democratic organization,
one editor said: "It passed appropri-
ation bills disfranchising nearly half
the voters of the state in legislative
and congressional elections, thus ac-
complishing under the forms of law
what it has accomplished elsewhere
by the tissue ballot and the shotgun."

To show how the Democratic gerry-
mander has worked in Indiana: In
1888 the state was Republican on presidential
electors by 2,387. The Republi-
cans carried the state for president,
but ten of the thirteen congressmen
elected that year were Democrats.
This fact was due solely and simply
to the fact that Democrats had so
thrown districts together as to concentrate
Democratic forces and dissipate
large Republican forces. It was trickery,
and it was unconstitutional. But the
mere fact that it was unconstitutional
did not prevent the Democrats from
carrying out the fraud.

Landslide Was Required.

That same year, with the state going
Republican, the lower house of the
legislature was 57 Democrats to 43
Republicans. Of course there was
nothing equitable, fair or just in this
situation. But there it was, logical
fruit of Democratic planting.

It required a Republican landslide
to overcome this unfair condition and
restore things to their proper balance.

On the other hand, the Republican
reapportionments have been fair.
There has been no complaint against
the 1905 apportionment. There was
no outcry of any sort against the Re-
publican reapportionment of 1897.

As far back as 1879 the Democrats
were at this trick of gerrymandering
the state in such a way as to give the
minority power over the majority.

Is Taggart better, more just or more
to be relied on than were the Demo-
cratic leaders of other days? This is
the thing to think about.

WISHES HE KNEW

Bryan Wants to Know What Progress-
ive Is.

At Auburn, Ind., W. J. Bryan said:

"It is fair to assume that if the next
legislature is Democratic John W.
Kern will be the next senator from
Indiana, for with Governor Marshall in
the state executive's chair, there will
not be much chance of any Democratic
member of the legislature voting for
anyone else. That's the value of hav-
ing a governor with backbone.

"Also I believe that Senator Bever-
idge should be returned if the legisla-
ture should be Republican. Now the
contest in this state seems to be be-
tween a Democrat and a progressive
Republican. I wish I knew what is
meant by 'progressive Republican-
ism.'"

Taft's Economics.

On the question of economy the Taft
administration has made a record. In-
stead of the gradual increase in de-
mands for the various departments
there has been a practical scaling of
estimates without hampering effec-
tiveness until the estimates of the cost of
government under Taft are placed at
\$1,096,952,051, against \$1,136,454,697
under the last Cleveland regime. Here
as elsewhere, he never has posed, has
talked little and accomplished much.—

SIDE TALKS ON
PUBLIC AFFAIRS

By Old John Henry.

To the Editor:

I do not know that the Indiana
farmer needs any political advice this
year, but I shall address a few words
to him, anyway.

One thing most of us regard as first,
is the matter of voting, in itself. Get
out and vote. See that your neighbor
votes. The right to vote carries with
it the duty to vote.

The citizen is the government.
Don't be a foolism sovereign or a
sulky sovereign, and stay at home
when government is in the making,
and when policies are being shaped
for your weal or for your woe.

Mr. Farmer, you are for the pro-
tective principle or you are against it.
Put yourself on record for or against.

You are for the existing prices or
you are for lower prices. Put your-
self on record, one way or the other.

Our friends, the Democrats, say
prices are too high. Republicans ask
you to compare the prices you get to-
day with the prices you received in
1896. Republicans ask you which you
prefer. What is your answer? Record
that answer at the polls.

If you want to go back to the era of
low prices, vote the Democratic ticket
and accept the policies which promise
low prices.

If you desire to continue the era of
good prices and good times, with the
millions at work and your markets
constantly expanding, vote the Republi-
can ticket and boost Republican prin-
ciples such as we operate under at this
time.

You, Mr. Farmer, having bought
more land, under the good promise of
lasting prosperity, are interested in
having the value of that land increas-
ed, or sustained, rather than decreased
or cut down.

You know the value of your land
lies in the value of the crops that
come from the land. Your wheat land
is twice as valuable when it gives you
\$1 wheat as it was when it gave you
45 cents wheat in 1896. Your corn
land keeps better value when it raises
70 cent corn than it did in the days
when corn was 15 to 23 cents and you
burned it for fuel. Thirty-five cent
oats means better land values than 20
cent oats. Hay at \$16.50 a ton, as it is
this year, lends part of its value to the
land, and it is better for you, Mr.
Farmer, than \$8.50 hay, under Demo-
cratic prices.

Take hogs at \$8.85 to \$9.15 a hun-
dred, and it is worth while to raise
corn to fatten them. The hog crop,
in its turn, makes farming more pro-
fitable, and farm land worth having.
It was not so in 1896, under Demo-
cratic prices, when hogs were \$3.15 a
hundred in the Indianapolis market.

It is a good thing for the farmer to
think beyond and through the prices
he gets for his products, and to con-
sider the comforts and advantages
that accrue to his home and family
as a result of his profits.

Now we all admit the farmer's
prices are fair only; that he is justly
entitled to partake of prosperity in
full measure, and that he is getting
no more than is coming to him today.

Does he want a change? And if
there is to be a change, does he desire
to take what Democrats propose, a
revenue-only tariff, uncertainty, agita-
tion, and lower prices for products?

How about it, Mr. Farmer?

Does it not look to you as if the
vote in the box November 8 ought to
count "one" for the continuance of
good times, expanding markets, just
prices, fair profits, and opportunity
for the children?

POLITICAL PARAGRAPHS

W. J. Bryan got an awful prosperity
bump in Indiana.

Col. Bryan refused to show his col-
ors in Indiana this year.

Tom Taggart has called on the mud
battery reserves, and has sent them
into action already.

John Kern will not be so hilariously
humorous when he gets through ex-
plaining the corporation joker he
slipped into the liability law in 1893.

Compare the Republican and Demo-
cratic state tickets, man for man, and
you will vote the Republican ticket as
a measure of safety and common
gunption.

The Democratic legislature of 1909,
from its jackpot caucus to its plunder-
fest and on to the climax of misman-
agement which has disordered the pub-
lic finances, did nothing to inspire
public confidence. If the voters judge
Democrats by their fruits, there will
be mighty few Democratic lawmakers
at the state house in 1911.

How many damage suits has John
W. Kern won for the railroads and
against the injured employee under the
joker he slipped into the Indiana li-
ability law in 1893? The records of
the Marion county courts carry many
of these cases. By Kern's own word,
given in 1908, he has been a railroad
lawyer, riding on railroad passes.

tee, He Hires a Hall.

Lincoln, Neb., Oct. 28.—Mr. Bryan,
not receiving any invitations from the
Democratic state committee to get
into the campaign in Nebraska, has
hired the auditorium in Lincoln, and
next Monday night will speak there
on the issues of the campaign. After
his failure to control the state conven-
tion in July and the later defeat of his
candidate for governor and senator,
he made a formal tender of his ser-
vices to the committee with the reser-
vation that he could say nothing in
support of the candidate for governor,
Mr. Dahlman. He received no reply
from the committee. It is understood
that he will devote the last week of
the campaign to Nebraska, and great
curiosity is expressed as to his atti-
tude, of which he has so far given no
indication. It was supposed that he
would support Hitchcock for senator,
but doubt is thrown on this by recent
revelations regarding Hitchcock's con-
nection with a political scandal.

HARDING AND HARMON

The Former Attacks the Latter on the
Record of His Receivership.

Cleveland, O., Oct. 28.—Judson Har-
mon, as receiver of the Cincinnati, Ham-
ilton & Dayton railway, in which office
he was active until June 30, 1909,
though governor of Ohio since Janu-
ary, 1909, was accused last night by
Warren G. Harding, Republican gubernatorial
nominee of withholding
from taxation in Ohio a total of \$74-
460,000 in taxable property of the road.
Mr. Harding also charged that the
banking house of J. P. Morgan & Co.
was shown by Receiver Harmon's re-
ports to the court to have carried an
overdraft by the receiver as high as
\$29,000 at one time.

Man Was Overlooked in Jail.

Terre Haute, Ind., Oct. 28.—Joseph
Reedy, charged with arson, was
brought into court at his request. He
had been overlooked for eighteen
months while he was in jail. He
thought his attorney was working on
his case, but the attorney withdrew
more than a year ago, and the prosecu-
tor did not know he was in jail. His
trial is set for next week.

The French Society of Sports at its
annual meeting awarded the grand
prize to Colonel Roosevelt on the
ground that he is an all-around man.

THIS RAFFLES
IS A COOL ONECalmly Admits a Succession
of Daring Burglaries.

HE HAD QUITE DASHING WAYS

The Hillside Quarter of Passaic Had
Been Haunted by a Mysterious Bur-
glar Whose Operations Aggregated
About \$10,000, Before Police Finally
Tumbled to the Game of a Pleasant-
Mannered Youth.

New York, Oct. 28.—An athletic,
pleasant-mannered youth, who has
been a familiar figure about the Hill-
side quarter of Passaic, is in the coun-
ty jail with thirty charges of burglary
against him. The police say he is a
"Raffles" of rare attainments.

When arrested in Hoboken he gave
the name of Henrique Anthony and
place of residence as 334 Hudson
street, Hoboken. He declined to ex-
plain further about himself, but when
asked regarding the burglary of doz-
ens of exclusive homes about Hillside
whose aggregate losses in thefts
amount to \$10,000, he answered: "Oh,
dash it all, I guess I did it. How many
did you say? Thirty? I should say
that was about right."

Then he became silent. He declined
the aid of a lawyer and made no re-
quests that friends or relatives be no-
tified. When captured by Detective
Turner he wore an expensive light
checked suit, college cut trousers,
olive gloves and a walking stick. He
submitted to arrest without a murmur.

When lodged in jail Anthony was
inspected by policemen, who promptly
recalled him as the genial young man
who had approached them at all hours
of night around Hillside, generally
with a request for a match and to pass
the time of night. Other policemen
recognized him as the youth they had
seen dashing around in his auto. He
smilingly returned salutes of the offi-
cers, but uttered no word.

Later when the detective laid before
him twenty-one written complaints
giving time and place of the robberies
and the property stolen, Anthony care-
fully scrutinized each paper and said:
"This is excellent work, officer."

According to Detective Turner, An-
thony's scheme was to enter resi-
dences through the open front door,
discard his hat, cane and sometimes
his top coat in the hall, and then rifle
any room or desk he came across.
When detected, as happened on sev-
eral occasions, he managed to apolo-
gize and beat his way out before the
maid or butler could sound an alarm.
He was discovered in the parlor of
Robert Mueller's home on Irving place
early Wednesday evening. He wore a
dark blue suit and had a chauffeur's
hood and goggles. When Mr. Mueller
came on him he was looking out the
window with a lighted match in one
hand. As Mueller spoke, he whirled
about and flashed a revolver in the
owner's face.

"Why, James, you almost frightened
me to death. I thought you were a
burglar," he exclaimed.

Before the surprised Mueller cou-
ld recover his senses Anthony had
nudged his way out and was in the
doorway, his revolver still in his
hand. As he stepped out he said:
"Well, of all things! Really, old chap,
please pardon the intrusion, but I
thought I was in brother Reginald's
house on the hill."

While Anthony was speaking Muel-
ler managed to draw a capable picture
in his mind of his appearance. Half
an hour after the incident Mueller re-
membered that his neighbors had had
such experiences with a mysterious
stranger, and called up the police. He
told Detective Turner how the intru-
der ran down the walk, cranked up his
machine and was off.

Turner later learned that a low,
dark car had wheeled into Hoboken
that night late, and traced it to a gar-
age. He found where the owner lived
and made the arrest. In the jail An-
thony declared he had sold the car an
hour before his arrest and produced a
duplicate signed receipt showing that
John Henry had bought the machine for
\$400.

FIFTY-TWO FLAGS

Fluttered on the Birthday Cake Some-
one Gave the Colonel.

Utica, N. Y., Oct. 28.—Just as you
begin to think that Mr. Roosevelt has
exhausted his supply of attack upon
Mr. Dix, he adopts a new line. Last
night in Utica he bitterly assailed the
Democratic nominee for his attitude
on the labor question.

Middle New York folks were inter-
ested to hear from Roosevelt that he
is not the issue of the campaign. He
made that statement several times.
Of course, said he, if they insist upon
calling him such he is quite willing to
stand comparison with Mr. Murphy.
He desired, however, to impress his
audiences with the fact that Stimson
is the issue. Yesterday was the col-
onel's birthday. He was fifty-two
years old. He celebrated by scrapping
more ardently than he customarily
does. Someone gave him a birthday
cake with fifty-two flags on it. It was
carried into the car and was eaten
voraciously by the correspondents.

Today is the last day of the trip.
The upstate Roosevelt tour will end
at Rochester tonight.

Weather Bureau Chief Ac-
cused of Mismanagement.BREACH OF PROMISE
PLAINTIFF LOST OUTCould Not Take Wife's Property
to Satisfy Judgment.

Indianapolis, Oct. 28.—A judgment
to the effect that Ada McKnight can-
not seize, on a judgment recovered
against Alexander Kingsley for breach
of promise of marriage, the property
which he conveyed to Mrs. Mary
Kingsley in consideration of her mar-
riage to him, has been affirmed by the
appellate court.

Alexander and Mary Kingsley had
been married and divorced before he
promised to become the husband of
Ada McKnight. When he became ill
he offered to convey to the divorced
wife the property in question if she
would remarry him. After the re-
marriage, but before a deed had been
executed as agreed, Mrs. Kingsley
learned of Mrs. McKnight's claim and
that she had begun suit for damages.
She accepted a deed for his property
with that knowledge.

Mrs. McKnight recovered a judg-
ment for \$200 damages against the
husband and then sued to set aside
his deed to his wife. Judge Comstock
said:

"A week prior to the marriage
Kingsley promised Mary Kingsley that
if she married him he would give her
everything he had. * * * This agree-
ment was made and executed prior to
any knowledge on her part of any
claim which appellant might have
against Alexander Kingsley. * * *
From the time the marriage was con-
summated under the agreement, Mary
became the equitable owner of said
real estate. * * * When she took
the conveyance she was only securing
what belonged to her." The parties
all live in Harrison county, and the
land consists of fifty acres on the bank
of the Ohio river.

MAY PROVE FATAL

After Wounding Sweetheart Everett
Perdieu Seriously Shot Himself.

Marion, Ind., Oct. 28.—Everett Per-
dieu, aged twenty, a farm laborer em-
ployed near Switzer, attempted to kill
his sweetheart, Miss Kate Workman,
aged eighteen, at the home of her
mother, Mrs. Fannie Morris, in this
city. The young man then turned the
revolver on himself, but both attempts
were unsuccessful. Perdieu is in the
hospital with a bullet wound in his left
side and physicians regard his recov-
ery as doubtful. Miss Workman,
while grappling with her assailant,
was shot through the left hand.

Protest Against Interurban Rates.

Champaign, Ill., Oct. 28.—Traveling
men who ride on interurban cars are
circulating a petition protesting
against the rates charged by the Illi-
nois traction system. They allege
that the company is exceeding the 2-
cent a mile rate within the state, and
are arranging to have the courts de-
cide the question of legality of such
rates. The company recently was
called before a board in St. Louis and
asked to explain why its promised
rate of 5 cents between Granite City
and St. Louis, Mo., had been raised to
14 cents.

Clara Morris's Home Saved.

Mt. Vernon, N. Y., Oct. 28.—Justice
Keogh has signed an order discontin-
ing the foreclosure proceedings
against the home of Clara Morris
Harriott, known to the stage as Clara
Morris. The amount due was \$25,000.
It is understood that Mr. Harriott's
brother came to the front to save the
couple from being evicted.

Bishops Called at White House.

Washington, Oct. 28.—President
Taft received the bishops of the Meth-
odist Episcopal church in the east
room of the White House yesterday
afternoon and made a brief address to
them. The bishops have been holding
their semi-annual conference in Wash-
ington. They called on Mr. Taft by
appointment.

DID THE ROADS

tempting to Show.

OPERATING EXPENSES BOOSTED

It Is Charged That in Effort to Show
the Urgent Need of More Revenue,
Western Railroads Had Needlessly
Increased Their Operating Expenses
For the Sole Purpose of Decreasing
Their Net Earnings.

Chicago, Oct. 28.—Strong testimony
that operating expenses of western
railways had increased abnormally for
the year 1910 marked the hearing be-
fore Interstate Commissioners Lane
and Clark on the plea of the roads
that the commission permit a general
increase in freight rates.

While shippers, attorneys and wit-
nesses called attention to the fact that
they made no such open statements, it
was apparent that their purpose was
to try to convince the commissioners
that the companies spent money lav-
ishly in 1910 for the sole purpose of
decreasing net earnings and showing
an alleged urgent need of more reve-
nue. The shippers also sought to
show that the gross profits of the
roads were liberal, but that sinking
funds, bond interest and the other
fixed charges were such a drain that
the surpluses were being wiped out.
This, it was declared, was the fault of
the roads and the shippers should not
be forced to pay higher rates on ac-
count of it. Values given by the rail-
roads for which they expected to earn
"reasonable returns" also were ques-
tioned.

"In 1910," said J. McVann, the first
witness, "the Santa Fe road reported
abnormally high expenditures for pur-
poses that could have been con-
trolled."

"What do you mean by controlled?"
asked Mr. Atwood.

"I mean expenditures that depended
upon the policy of the management.
Expenditures for maintenance of way
and structures were made to an extent
never before known. I don't mean to
impute any unfair motive to the man-
agement, but there would have been
no such increase had the management
really wanted to keep expenses down."

Mr. McVann said the same thing was
true to a lesser extent in the case of
the Northwestern and the Burlington.
He declared future freight rates and
revenue needs should not be based
upon such an "abnormal year."

The shippers determined to concen-
trate their attacks on the evidence
submitted by the Burlington, Chicago
& Northwestern, Santa Fe, and Chi-
cago, Milwaukee & St. Paul.

Mr. McVann is manager of the traf-
fic bureau of the Omaha Commercial
club. He testified that depot and ter-
minals of the Burlington in Omaha
were worth only a little more than
\$1,000,000, whereas General Manager
Ward of the road previously had tes-
tified that it would cost \$3,300,000 to
duplicate the property.

INDIANA Y. M. C. A.

Annual State Convention Will Be Held
in Vincennes, Dec. 9-11.

Vincennes, Ind., Oct. 28.—The forty-
first annual state convention of the
Indiana Young Men's Christian asso-
ciation will be held in this city, Dec. 9,
10 and 11, Friday noon to Sunday
night.

Only seven times in the forty years
of organized state work has this con-
vention gone south of a line drawn
from Richmond to Terre Haute—these
seven having been held at Evansville
(2), New Albany (3), and Columbus
(2). Vincennes is the oldest city in
Indiana, the population now being
about 15,000. It has no Young Men's
Christian association, but the vigorous
Men's Brotherhoods are with keen in-
terest planning for this convention.

Special features full of interest will
be the convention dinner Friday even-
ing, the discussion of the report of
"The Committee of Nine" appointed
by the last convention, consideration
certain technical association methods
and of the course association men
should pursue with reference to per-
sonal evangelism and social service.
Sunday will be a "field day."

One hundred students of Tufts col-
lege have been suspended for non-
payment of their term bills.

SUNDAY SCHOOL LESSON

OCTOBER 30, 1910

The Anointing of Jesus. Lesson:—Matt. 26: 1-16.

GOLDEN TEXT:—She hath done what she could.

We are to have five lessons in this
chapter, the greater portion of which
is recorded by Mark and Luke also.
The first five verses and the last three
are in the regular order of events, two
days before the Passover, and Jesus
again announces that He is to be cru-
cified (verse 2). The record says that
not only had the chief priests, scribes
and elders determined to kill Him, but
they were actually consulting as to
how they could do it in a quiet man-
ner without an uproar, for they feared
the people. "Then entered Satan into
Judas, surnamed Iscariot, being of the
number of the twelve, and he went his
way and communed with the chief
priests and captains how he might be-
tray Him unto them," and for thirty
pieces of silver he agreed to do it in
the absence of the multitude (verse 15;
Luke xxii. 3-6). Luke also tells us
that during those last days He was in
the daytime teaching in the temple,
and at night He went out and abode
in the mount that is called the Mount
of Olives (xxi. 37). After such a re-
cord concerning Him whose witnesses
we are and whose steps we are to fol-
low shall we ever again complain if
we are hated for His sake, if one who
professed to be our friend joins the
enemy against us.

The anointing by Mary is recorded
by Mark and John also, but not by
Luke. In Luke vii. 36-50, there is a
record of an anointing which was also
in the house of a man called Simon,
but that Simon was no friend of Jesus,
and the woman is unnamed and was
confessedly a sinful woman.

The event of our lesson today was
six days before the Passover, and it
was at Bethany, in the house of Simon
the leper, and Martha and Mary and
Lazarus were all present. They made
Him a supper, and Martha served, and
Lazarus was one of them that sat at
the table with Him (John xii. 1, 2). It
was on that evening that Mary took
the pound of very precious ointment
of spikenard and brake the alabaster
box and poured it both on His head
and on His feet as He sat at meat,
and the house was filled with the odor
of the ointment. Compare the three
records. Mary, like the other woman,
wiped His feet with her hair, but the
other wiped her own tears with which
she had washed His feet, while Mary
wiped them after she had anointed
them with the ointment (Luke vii. 38;
John xii. 3). In the one case it was the
heartfelt gratitude of a truly penitent
sinner, while in the other it was the
devotion of true worship and an
anointing beforehand for His burial,
for He said so, and He knew her heart
and her purpose. My own conviction

is that Mary had received His words
concerning His cruel death at the
hands of His enemies and knew that
it would therefore be impossible for
His friends to show any kindness to
His body then, as far as she could see,
and she had made preparation and
had watched for her opportunity,
which has now come. Can any one
say that He, knowing all things, had
not arranged this stop at Bethany
specially for her sake? The other women,
who, like Peter and John and the rest
of His disciples, had not received His
sayings concerning His sufferings,
bought spices after His death and
burial to anoint His body when the
Sabbath had passed, but they never
used them for that purpose, so that
Mary was the only woman who was
privileged to anoint Him for burial.

Those who receive all His words
have blessings beyond all others. Some
one has suggested that in the three,
Martha, Mary and Lazarus, taken to-
gether, we have what constitutes a
well rounded Christian life—Lazarus,
the power of a resurrection life, be-
cause that by reason of him many of
the Jews went away and believed on
Jesus (John xii. 11); Martha, restful
service, because that here we do not
read of her being cumbered, as on a
former occasion; Mary, true devotion
and worship, for such is always cost-
ly. David said, "Neither will I offer
burnt offerings unto the Lord my
God of that which doth cost me noth-
ing" (II Sam. xiv. 24). Let us pon-
der, as in His sight, the cost of our
worship and of devotion to Him. Fi-
nancially how does it compare with
our worship of self and the world? If
we become as devoted to Him as Mary
was not only will some Judas criti-
cize us, but many professedly devoted
ones will find fault also, for, while no
one will, perhaps, condemn our love
for self and this present world, many
will protest against too much devo-
tion to Jesus Christ. Well, let them,
if only we can have His "She hath
done what she could." "She hath
wrought a good work on me" (Mark
xiv. 6, 8). If fault finders with devo-
tion to missions could by any means
hear His voice they would doubtless
hear a "Let alone." "Why trouble ye
them" (verse 10; Mark xiv. 6). Think
of the honor conferred upon Mary in
that a testimony concerning her love
and devotion is given in all the world
wherever the gospel is preached. Oh,
how real devotion to Him is needed in
our day, when all the world is open to
the gospel and the age of unparalleled
opportunity is fast closing, and soon
He will come again to take His church
to Himself. May we abide according
to I John ii. 28.

A Fashion Chat on Smart Waists

Furnished by Pictorial Review

222 West 39th Street, New York City

There is abundant evidence that the
silk tailored waist will be a stronger
note in the fall and winter fashions
than heretofore. New features are
introduced, those little details that tell
the style and age of waist or gown,
new materials are employed and smart
neckwear is worn with them. A
tailored coat suit possesses double
usefulness when it has a smart silk or
satin waist matching it in color or
general tone for morning wear, and
another waist of a dressy character
to wear with the same suit for a more
formal occasion when the coat is to
be removed. The tailored linen waist
sometimes has tucks or plaits or it
may have embroidery. Foulard has
struck a new note in tailored waists
some of the new style waists being of
this highly prized material; the ground
matches the color of the suit and it
has a white or other contrasting
figure. Riplette is the name of an
improved form of what used to be
known as seersucker. The improved
new fabric has a crinkly stripe and
a smooth one and like other crepey
materials it does not have to be
ironed.

The magyar or peasant style, having
the body and sleeve in one, is one of
the most favored for these waists and
they often have some kind of a shal-
low yoke of lace or embroidery.
Waists of Persian and Indian printed
satin with or without chiffon over-
them are worn with tailored suits,
and another waist that is very stylish
for the tailored suit is made of fancy
plaid cashmere or silk. It is on the
plain shirt-waist order without trim-
ming of any kind and having the con-

ventional box plait. It has shirt
sleeves, rather small narrow cuffs and
are worn with a narrow plaited frill
of lawn or of the waist material.
Small silver or gilt buttons are fre-
quently used for the closing. A waist
that is made of marquisette printed
with Persian or oriental figures can
be of the simplest style, yet be
elaborate looking on account of the
beauty of this material. These figured
effects are made over plain colored
foundations.

PICTORIAL REVIEW PATTERN
No. 3619, is a suitable shirt waist de-
sign for white linen with hand em-
brodery, and for fall and winter wear
it will be very smart. It closes at the back
and has a high standing collar and
long sleeves, but the pattern also pro-
vides for round neck and three quarter
length sleeves. It is cut in sizes 32, 34,
36, 38, 40, 42, 44 and 46 inches bust
measure, and the medium size re-
quires 2 1/2 yards of 27 inch material.
The embroidery design is No. 11045,
price 25 cents.

Dull blue satin with very narrow
folds of Persian silk was used for
the shirt-waist made by PICTORIAL
REVIEW PATTERN No. 3607. It has
a yoke which is straight in the back
and shallow in front with a deep point
at each side. The frill which trims
the closing can be made detachable.
It has shirt sleeves and is without a
lining. The usual shirting materials
silk and dull satin, are sizes 32, 34,
36, 38, 40, 42 and 44 inches bust
measure, and the medium size
requires 2 1/2 yards of 36 inch material,
or 2 3/4 yards of material 27 inches wide.

In the matter of failure to fulfill platform promises in state and nation the Democratic party has won distinction. One of the glaring illustrations of this was given by Ex-Congressman C. B. Landis in a speech a few days ago in which he reviewed the work of the party while it was in power following the election in 1892. The platform on which the party won that year was almost ignored when it came to legislation. It had declared for civil service and for liberal pensions for old soldiers; yet thousands of government employees were discharged to make place for partisan Democrats and 30,000 pensioners were dropped from the list. The platform declared for repealing the 10 per cent. tax on state bank issues, in favor of improving the great water ways and of digging an Isthmian canal but the declaration was the end of the party's efforts. The platform promised to destroy all trusts but there was absolutely no legislation on the question. Statehood was promised Arizona and New Mexico but the promise was all these territories received. The platform condemned the extravagance of the preceding congress, yet the expenditures of the first session they were in power exceeded those of its predecessor by \$40,000,000.

The taxpayers of Jackson county want the affairs of the county managed in an economical, businesslike manner. When they pay taxes for specified purposes they want to know that they are receiving the full value of their money. The democrats have had control of the local government for so long that they have become somewhat careless and negligent, and the taxpayers, regardless of political affiliations believe that a change would result in a great amount of good. That is the reason the people of Jackson county are going to vote for the Republican ticket and place in county offices men who will safeguard the public interests. The way to assure a more economical administration is to elect the republican candidates for county offices.

In nearly every political speech of John W. Kern this campaign he has talked at some length upon what he is pleased to term the rascality of the republican party. Mr. Kern evidently has forgotten his own charge in connection with the election of Senator Shiveley. He has seemingly forgotten that the greatest scandal the democratic party must excuse was started by him when he said that eight of the democratic legislators were bribed. Before he begins to complain of the republican party he should be certain that his own record is clear and untarnished.

There are men in Bedford today who worked on the pike roads of Lawrence county for 75 cents a day during Cleveland's Democratic administration. Today Contractor Shields can't get enough men for his work on Bedford streets at \$2 per day.—Bedford Mail.

In going about the county William Goecker, candidate for sheriff, is being given much encouragement. He has many friends in the county who know him to be an honest, upright citizen, who will serve the people in a conscientious manner.

The corporation tax law passed by the last congress will yield \$35,000,000 this year, enough to pay the cost of the rural mail service.

Talking machines and Records at less than factory cost.

Brought to the Point.
Mr. Popinjay (falling on his knees)—Miss Perkins, I can no longer resist the passionate impulse to appeal to you on the momentous subject that is fraught for me with the issues of life and death. And yet I am overawed at my presumption when I take into consideration the celestial glamour of your personal charms, the dazzling luster of your intellectual attainments, the exquisite, the adorable—Miss Perkins—Excuse me, Mr. Popinjay, but there are times when eloquence is rather out of place. If you wish to pop the question pop it and be done with it.
The question was duly popped.—Exchange.

GREAT LAKES SKY PILOT HAS 1,800 MILE PARISH.

Gasoline Boat Is Church, and Services Are Held Annually.

A parish 1,800 miles in length and 300 miles in width is in charge of the Rev. W. H. Law, known from Buffalo to Duluth as the sky pilot of the great lakes.

The membership of this parish runs into the thousands, and the great majority of the parishioners never worship twice in the same locality, for services are held mostly in the moving ships. No wedding has ever taken place in this parish, no christening of a baby, no services for the burial of the dead.

This sky pilot seeks his parishioners in a small gasoline boat, twenty-two feet in length. Besides carrying the message of gospel to these men, he takes to them books, magazines, papers and news of the outside world. His visits are looked forward to by the lighthouse keepers and the lightship crews, for his territory is so large that he is unable to visit them more than once during the season.

Some of the lighthouses visited are far from the mainland, and the trips to them are hazardous. Standard Rock light, for instance, is nearly fifty miles out from Marquette on Lake Superior. The light is 105 feet in height and rests on crib work, which is encircled by a railway, and for weeks at a time the weather is so bad that it is dangerous for the keepers to venture out of doors. Between the light and Keweenaw point there is a depth of 1,008 feet of water.

On his travels the sky pilot visits 300 lighthouses, fifteen lightships and sixty life saving stations. Mr. Law does not outwardly resemble a minister of the gospel. He is big and healthy and has a rolling gait like a sailor. He preaches simply to the sailors, with whom he is very popular.

STRIKING WASHWOMEN LOSE.

Employing Matrons Organize, and Town Crier Is Busy.

The washerwomen of the small village of St. Pierre d'Oleron, in France, decided to strike and sent the town crier through the streets to proclaim that henceforth their rate was 30 cents a day with meals. The women who employed them retorted by means of the same town crier that the new rate would only be paid on condition:

First.—A day was to be from 7 a. m. to 6 p. m.
Second.—No linen was to be brought to the houses where the women were employed to be washed.
Third.—Coffee not to be included.

A tumultuous meeting of the washerwomen followed, and the town crier was sent forth once more to proclaim

that the washerwomen had now raised their price to 35 cents a day.

"Those who wish to keep clean will employ us at that price; those who do not wish to be begged to do their own washing," they added.

The matrons of St. Pierre d'Oleron met, discussed the situation and decided to do their own washing rather than submit to such extortion.

Result, in a few days the town crier was again on the march throughout the streets giving out the following notice:

"Ladies, the washerwomen of St. Pierre have decided after reflection to continue day work on the old term, 20 cents a day, with meals and coffee."

TURKS LOSE NOTED RED FEZ

Brownish Green Astrakhan Cap Ordered For Army.

The Ottoman war office has decided to abolish the conspicuous red fez hitherto worn by officers and privates alike in the Turkish army. The substitute is an astrakhan military cap of a brownish green, the same color as the new Turkish uniforms.

It has a plain buttonlike knob in front in the case of privates, while officers have it adorned with silver or gold braid, according to rank. Officers will wear no other headgear, but the rank and file still retain a fez for use with undress uniform, and this fez is made of khaki colored felt.

Electricity Illumines Tarsus.

Tarsus, the ancient city in Asia Minor where the Apostle Paul was born, is now illuminated by electricity. The power is taken from the Cydnus river. There are now in Tarsus 450 electric street lights and about 600 incandescent lights for private use.

Traveled 3,370,000 Miles.

A conductor on the Great Western railroad of England recently retired after fifty years of service, and it is estimated that during that time he traveled 3,370,000 miles.

THE CAT THAT FLEW WITH
WELLMAN.

Let Tabitha and Thomas Cat,
Whose home is in a Harlem flat,
Meow and purr most gently at
The cat that flew with Wellman.

It is an honor when a man
Tries the Atlantic pond to span,
But is no greater honor than
The cat that flew with Wellman.

But how could Wellman hope to fly
Across the ocean's billows high
Without some mice to satisfy
The cat that flew with Wellman?

The reason for the failure seems
A lack of rats in midair streams.
The ocean's vessels grant its dreams—
The cat that flew with Wellman.

Wellman might gain the airy track
Without the pangs of seasick's rack.
But cats! 'Tis known that cats come back!
That's why one flew with Wellman.

were the first made in America, and for more than fifty years
they have been the first choice of women who are particular
that their gowns shall have the correct figure lines.
The secret of the great success of these corsets lies in the fact
that they fit the figure like a glove, in other words, they are
absolutely comfortable, which cannot be said of all corsets.
Our corsetiere will see that you get the right model, the
right length and perfect adjustment of the garment about the
bust and hips. If you have had trouble in getting a perfect fit
before, we can provide it, if not out of stock, will see that it is

CATARRH

A SPECIFIC BLOOD IMPURITY

Catarrh is a deep-seated blood disease, one which no amount of local treatment will ever permanently cure. The beneficial effects of washes, sprays, inhalations, etc., are only temporary, and when left off the old condition returns, because the blood is infected with catarrhal matter and impurities. This impure condition of the circulation irritates and inflames the delicate mucous membranes and tissues and produces the well known symptoms of ringing noises in the head and ears, mucus in the throat, headaches, watery eyes, partial deafness, sore throat, general impairment of health, etc. This condition will remain, growing worse as long as the catarrhal matter is allowed to remain in the blood. Being a specific blood impurity, there is only one way to cure Catarrh, and that is to purify the blood. Nothing equals S.S.S. for this purpose. It attacks the disease at its head—in the circulation—and by thoroughly renovating the blood and cleansing it of all impure matter, makes a permanent and lasting cure of the disease. For forty years S.S.S. has been recognized as the best blood purifier, and the thousands of cases of Catarrh it has cured is proof that it is the very medicine needed by those who suffer with this trouble. Book on Catarrh and any medical advice free.

FOREIGN-BORN VOTER
BRUTALLY ATTACKED
Democratic Press Insults New Citizens as a Class.

The latest Democratic expression of feeling towards the foreign voters of Indiana comes in the form of a letter to Democratic newspapers of the state, in which is the following:

"There is not much use to talk about voting the average Hunyak unless you talk to him over a keg of booze or with some money in sight. Since there is not much of the latter to buy much of the former, the politicians are not counting much on this ignorant class of voters."

Going further, the same letter asserts that with the foreign voters "eliminated," the Democrats expect to win at the election this year.

As to how the Democrats propose to "eliminate" foreign voters who are entitled to vote, there is no explanation, except the assumption that if Democratic politicians refuse to appear with barrels of booze and bundles of boot, the vote will show a decided falling off.

No harsher, more brutal insult could be put upon foreign born voters than that which is carried in the words of this Democratic letter to Democratic newspapers. In the opinion of the Democrats who print this stuff the foreign born American citizen must be classed under the sneering appellation, "Hunyak." According to the theory of these narrow, heartless Democratic party schemers, the foreign born voter of necessity must be classed as a boozier and brawler, subject to the coarse and lawless whims of men like Tom Taggart.

Take the picture drawn by the Democratic press of the state, and contrast with it this sketch of a foreigner, coming into the United States to carve a new fortune and to educate his children in the land of opportunity.

The dispatches of October 18 tell the little story. George Thornton, a Welsh miner, with seven children, motherless, but not orphaned, asked to be admitted to this country at Ellis Isle. He had \$165. The special board of inquiry said Thornton must turn back. Thornton, appealing to President Taft, said:

"I have my health and strength, and, sir, look at my two hands, are they not the hands of a man that can work? They say the kiddies might become a public charge because I have but \$165. It ain't so. No Thornton ever asked for charity yet. All I ask is a chance to make a living in this free land for my babies. Their mother is dead and they have nobody but me to look after them."

Now, there is a man of great, strong purpose, high ideals. He is a miner, a Welshman, a toiler in grime, and he has but a little money and many children. But he has his two hands and they are capable hands.

Is it any wonder President Taft ruled that Thornton might come in? In spite of the assertions of Democratic papers and the sneers of Democratic politicians, disappointed in their efforts to control, the fact remains that the average foreign born citizen has ideals just as high and purposes just as simply noble as those of George Thornton, the miner from Wales.

Good Americans ought to hold out the helping hand to the newcomers, as President Taft did to George Thornton. Let there be no more insults put on the foreign born citizen by Democratic politicians, or by any citizen whatsoever.

A FEARLESS LOT ARE AVIATORS

Getting So They Don't Mind the Wind Any More.

AIR CRAFT BLOWN BACKWARD

Johnstone and Hoxsey in a Burst of Friendly Professional Rivalry Take a Chance That Gave the Spectators a New Sensation in the Ways of the Birdmen—Wind Makes Sport of Machines High in the Air.

New York, Oct. 28.—Ralph Johnstone taunted Arch Hoxsey about his fur-lined aviation clothes at the international aviation meet at Belmont park, whereupon Hoxsey jumped into one of the older fashioned Wright biplanes without awaiting orders or even permission from the Wright brothers and ascended for altitude in a windstorm. At a height of three-quarters of a mile or more Hoxsey and his aeroplane were blown backward over Long Island for 24½ miles in a wind estimated at 45 to 50 miles an hour above ground. He managed to land at Brentwood safely.

Johnstone, who was lunching with the Wright brothers at the time he made the facetious remark that plucked his camp rival, jumped up from his pumpkin pie upon hearing the Hoxsey machine buzzing into the windstorm, and ran out to climb into his old model Wright biplane. Also without waiting for orders or permission, Johnstone chased up toward the blue wind-clouds.

Thereupon the unusual spectacle of seeing aeroplanes going rapidly backward was presented to the crowd below whose feathers and fustings were being flattened by the wind and dust storm that was charging across the field. Johnstone also backed up and off the field as if taking a stage bow in an upside down direction from the grandstands, and he was blown backward in an air line of 39½ miles to Middle Island, which is in the interior of Long Island. Johnstone also managed to land safely.

As neither Hoxsey nor Johnstone landed inside the aviation field, their altitude barograph measurements will not stand officially, and it is not likely that they will be awarded the hourly altitude prizes of the day for the same reason. Hoxsey landed an hour and 25 minutes after arising from the field, and Johnstone landed two hours afterward.

While they were fighting the wind but giving way to it involuntarily up among the blue clouds, Latham in his Antoinette was winning the first hourly distance event in the softer wind which was blowing about eighteen miles an hour a few feet above the ground. Later on the Antoinette was offered \$750 by the management to fly around for the benefit of the crowd, but as the wind was still rising, Latham refused. Brookins, however, ascended without the incentive of a special bonus just before the wind began to sweep the dust across the field in clouds that shut off the view of the grandstand. Brookins therefore won the second or special hourly altitude and distance prizes of \$250 each, but when he dropped through the dust after a tip-tilting crazy flight of nineteen minutes he said that being stopped and blown sideways and backward on the lee scuppers was worth all the prize money and some more.

ON THEIR WAY HOME

Hawley and Post Reach Quebec After Strenuous Experience.

Quebec, Oct. 28.—Hawley and Post of the balloon America II., reached Quebec shortly before 7 o'clock last night, having taken eleven hours traveling the 227 miles from Chicoutimi, by the Lake St. John railroad. Both are in excellent health and spirits notwithstanding their strenuous experiences of the last ten days. Lewis Spindler of the Aero club of St. Louis met them at Loretta and accompanied them here. United States Consul Willrich proffered hospitality and assistance. Several newspaper men met them on arrival. The party left at 11:30 for Montreal enroute for New York.

The aeronauts have kept a careful record of their entire trip, with altitude, temperature, etc., taken every hour and sometimes oftener. Their greatest altitude was 15,000 feet, which was when they shot up into the northern wilderness about noon on Wednesday, the last day of their flight, in search of a landing place. The two trappers, Joseph Pednaud and Joseph Simard, who brought to civilization Post and Hawley, have earned the \$1,000 reward offered by Mr. Harmon. Joseph Pednaud is a farmer who was born at Chicoutimi, and was one of the first settlers of St. Ambroise. He is well off and a very good trapper. The other is a shoemaker. He is poor. The balloonists gave them a nice reward and also made a gift to the parish priest for the poor of the parish.

STATE COMBATTING INFANTILE PARALYSIS

Strange Disease Takes Epidemic Form In Illinois.

Springfield, Ill., Oct. 28.—An epidemic of infantile paralysis in Illinois is being investigated by Dr. J. A. Egan, secretary of the state board of health. Two victims of the disease now recovering through the use of a new serum are daughters of Congressman Frank O. Lowden, aged eleven and fourteen respectively. Dr. Egan is watching their cases at the congressman's home near Oregon, Ill., and if the serum proves successful the state will secure samples for further test, and for the purpose of stamping out if possible one of the greatest menaces to the child population. The Lowden children, who are heirs of Mrs. George M. Pullman of Chicago, are expected to recover from the dread disease. Their first sign of improvement came when the serum was administered by Chicago specialists.

The state board of health has been getting reports from various parts of the state for several months, and it is doing all it can to combat the disease.

Auto Ran Off the Road.

Hammond, Ind., Oct. 28.—Miss Edna Mahler and her sister, Miss Dean, together with Frank Brown, an escort, were seriously hurt as the result of the endeavor of the chauffeur to escape running into a team. The machine, going at high speed, slipped down an embankment. Both girls were hurled face forward into a barb wire fence and their faces and shoulders were gashed. Strips of flesh were torn from Edna Mahler. Brown was injured internally.

Ship Subsidy Dead, Says Senator.

Rockville, Ind., Oct. 28.—In a speech here Senator Beveridge came out strongly in favor of an inheritance tax and an income tax and against a ship subsidy, saying he was glad the latter is dead. This is the first time he has expressed himself on the income tax and an inheritance tax.

HAPPY RESULTS

Have Made Many Seymour Residents Enthusiastic.

No wonder scores of Seymour citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Seymour by Doan's Kidney Pills.

Mrs. Elizabeth Wilson, 113 E. Second street, Seymour, Ind., says: "It gives me great pleasure to add my statement to the many others given by parties who have used Doan's Kidney Pills with success. I suffered terribly from my back and my health was all run down. The pain in my loins often kept me awake at night and I also had pains in my head. On a friend's suggestion, I procured Doan's Kidney Pills and had not finished the contents of one box before I felt better. The use of four boxes of Doan's Kidney Pills completely cured me and improved my condition in every way."

Twin Earthquakes.

Earthquakes which consist of two shocks separated by a brief interval of quiet or of two maxima of intensity are known as twin earthquakes. In Great Britain one in about every twenty earthquakes is a twin, and the strongest shocks experienced in that country belong to this variety. It is believed that twin earthquakes are due to impulses arising from two detached foci, separated in different cases from four to more than twenty miles, but lying along the same fault in the earth's crust.

Power of Ocean Breakers.

Experiments made at the Bell Rock and Skerryvore lighthouses, on the Scottish coast, have shown that, while the force of breakers in the German ocean may be taken as about a ton and a half on every square foot of surface, Atlantic breakers fall with a weight of about three tons to the square foot. On one occasion during a heavy gale huge blocks of granite were washed about like pebbles at the Plymouth breakwater, carried 200 feet up its inclined plane and scattered beyond it in all directions. One of the blocks weighed two tons.

Often The Kidneys Are

Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

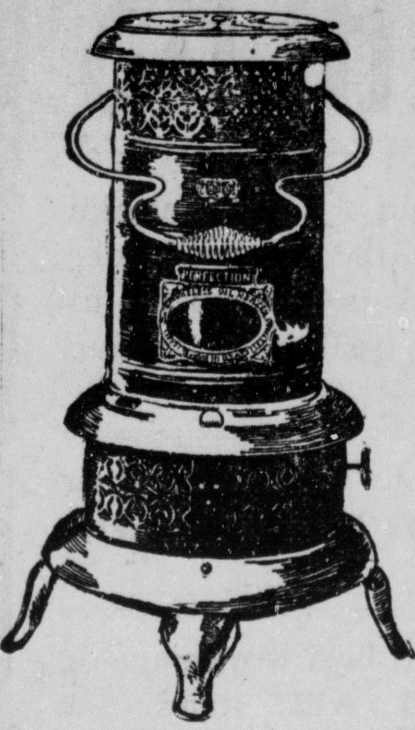

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Home Course In Tree Preservation

By JOHN DAVEY
Father of Tree Surgery

IV.—Errors In Transplanting Trees

(Copyright, 1910, by American Press Association.)

AMERICA was "the land of forests," but mountain, dale, hill and plain are now about denuded of her trees, thereby destroying both wealth and glory. I was recently called to Phillipsburg, Pa., to give a lecture on "The Salvation of Our Trees," and in going from Tyrone to Phillipsburg it nearly made the heart sick. The beautiful hills on that part of the Allegheny mountains were entirely stripped of trees, and even the young growth, six inches in diameter, had been cut away to be used as "mining props." The coal mines are nearly exhausted, and many people told me they would not live on the lands just for paying the taxes, for they would starve to death. And yet on those hills forty years ago were growing the most magnificent specimens of pines, hemlock and other conifers. It is with sadness that the people have seen the pristine forests fade away.

There is an instinctive love of the tree in man, and as he looks upon the barren bleakness of treeless expanse he sighs for something to relieve the dreary, monotonous bareness of the soil and commences to realize what it means to be without shade in the heat of summer and no trees to break the fury of the blasts in winter; hence he readily saw that there should be shade trees by the highway, clumps or groves around the home, as well as the fruit trees in the orchard and garden. He

NO. 7.—WEAKENED AND LEFT A PREY TO STORMS.

goes to the woodlot and hunts for the young maple or elms and, having found them, proceeds to plant. One of the commonest mistakes he makes is to plant too close together, but the one mistake above all others is—well, "Whack!" off goes the top.

Very often the shade trees come from the nurseries with this same grave error committed on them.

By cutting off the top in order to live at all the growth is forced out from the twigs, and as the stub gradually decays a weak point is made right in the center, so that as soon as the branches are of any considerable size the strain of the windstorms rends it open at that point where the greatest strength is required. Every storm that comes along is weakening it still more, and the larger the branches the greater the leverage of the wind.

A storm had just passed and taken off one-third of the farthest tree in illustration No. 7. It had also split the other two limbs. In other words, the tree was ruined. In illustration No. 8 just one-half of the tree is wrenched off in a violent storm, and this tree also is ruined.

The mistake generally lies in selecting too large a tree, and, being too large, the height also is objectionable, and the winds would be apt to blow it

NO. 8.—TRUNK WEAKENED BY CUTTING OFF TOP; SPLIT BY WIND.

over. Knowing this, the top is taken off, with the result that has been described.

The best size for common planting is a tree about as big as a broom handle. The proportions of the length of such a tree, say a maple or elm, would be almost twelve feet, and a good stake would hold it in place. A small tree will almost invariably grow, because it has its "feeding roots."

TAGGART AGENTS PEDDLE SLANDER

Democrats In Retreat, Under
Bosses, Losing Tempers.

CAMPAIGN OF DEFAMATION ON

Old Methods of Taggartism Revived In Most Brutal Forms As Desperate Expedient In Effort to Stem Tide Towards Republicanism In Indiana—Republicans Continue Argument And Appeal to Voters On Grounds of Decency and Progress.

The Republican campaign in Indiana has made such splendid strides toward victory in the last two weeks that the Democratic retreat already is on the point of rout.

The Republican campaign has been made on a high level of argument. If the truth has been harsh, it has been the truth. It is not often the voters have an opportunity to hear living issues so clearly, fearlessly and honestly presented as in the Republican discussion of 1910 in Indiana.

Col. Roosevelt made a positive appeal to the people for support and gave reasons in logical order, for expecting his cause to be considered by the voters.

Not a word did Col. Roosevelt say of the Democratic predicament in Indiana. Not once did he refer to the bossism of Taggart, the bribery charges made by John Kern against the friends of Senator Shively. Not a word did Roosevelt say to embarrass Democrats. He made a broad, high plea for progressive Republicanism and for Senator Beveridge as the embodiment of that idea.

For Home and Country.

Senator Beveridge has gone to the voters asking them to vote for their homes and for the country and to think of party afterwards. He has gone to the front on a showing of worthy achievement, and is asking the voters to consider his work, if it be good.

Such a campaign, of course, is sure to win with Indiana voters. And doubts the Democrats may have had as to the outcome have been blown away by the wind that fills the sails of the Republican ship, victory bound. Taggart men have been rendered desperate by developments. They have been unable to keep their own party men in line. They have made blunder after blunder. They have fallen into trap after trap. They have been led into error, and the rank and file Democrats refuse to follow and become entangled with the unfortunate Democratic bosses. Taggart's political motor car has broken down and mired, far from home. He has been deserted by one chauffeur after another.

In such a time of desperation it is the nature of such a boss as Taggart to stoop to the slime where his machine is marooned, and in his rage to hurl mud at passers-by.

That is exactly what is going on in the Indiana campaign today. Falling in argument, the Taggart crowd is using slander. Republican candidates all along the line are being assailed as to their personal characters. Nothing is too mean or vile to be concocted into lies and peddled about by Taggart agents in the effort to injure or defame good men in public life.

Slander at Work.

Candidates for county offices in counties adjoining Marion county have returned to their homes from Indianapolis to find Democratic workers spreading slanders in their absence. The Taggart campaign has taken the place of the Marshall-Kern-Shively-Lamb-Bryan campaign. In place of oratory the people are given muck from the Taggart batteries. In the place of argument the voters are forced to dodge filth and falsehood.

It is as William Allen White, the great writer, predicted many months ago, when he told how the fight would be made against Senator Beveridge in Indiana. Mr. White said:

"The fact that Beveridge has stood unafraid and unshaken has meant much to the people. Naturally the interests that he has rebuffed and has helped to keep within bounds are after him."

"They will use money in Indiana. They will use political trickery in Indiana. They will use every scheme and dodge that the wily politician knows in the high degree of that craft."

"The people of Indiana have to vote through a legislature in order to return Senator Beveridge, so it may be expected that every Republican candidate for the legislature will be assailed, not because he is for Beveridge—not at all!"

Spreading Lies.

"The candidates will be attacked 'on personal grounds'; local issues will be manufactured, stories will be spread, every inducement will be held out for the average voter to vote for the Democratic legislative candidates."

"It will take a political intelligence and purpose rarely demanded in American politics for the people of Indiana to sustain the champion of Indiana people, but the whole nation is watching the result, and the good will of every honest citizen of every state is with Senator Beveridge in his fight. The Indiana cause this year is the nation's cause."

PLEA FOR IDEALISM

Cleanly Living and Home
Building Are Worth
While.

Speaking to 250 first voters at Marion the other night, in an off-hand, heart to heart exhortation, Senator Beveridge put a lot of meat into a few earnest sentences.

"I am still young enough to know what youth is," he said, "but old enough to know what life is. You are home-builders, or will be. That is the first thing to get into your blood, young men. You are to be the founders and defenders of clean, upright, splendid American families. That the family shall be clean, upright and splendid is the purpose of this republic—of life itself."

"It is not worth while playing the game of politics, but it is worth your lives to give them for righteousness and for clean things in a clean fight."

"Get that into your souls. Get that into your blood."

"Youth is only worth while if you put the energies of your life into things worth while. Building up manhood, citizenship, the country, your homes, is worth while. Our fathers have taught us, too, that this is worth dying for."

"That is the slogan of this campaign: Home, country, citizenship, in the republic, clean manhood, are worth fighting for and worth dying for."

"This is the meaning of the whole progressive movement. Abraham Lincoln was inspired by this. The men who left the firesides for the fields of carnage, to die, if need be, were inspired by this. That is the spirit inspiring us today."

"Not as politicians, not merely as Republicans, but as young men meeting together, are we here tonight, as men, who, if there were a call to arms tomorrow to defend an outraged and insulted flag, would go out and offer our lives."

"Let us strive and work for righteousness. That is the spirit I see burning in your faces tonight."

"Believe me, fellows, there is not anything worth while in this life but idealism."

"Men play their games of money and politics. Finally they come to the time when there is something missing. And that something missing is idealism."

"An audience like this inspires me far more than the thousands I meet every day. I look into your faces and see the sunrise of tomorrow. I want to thank you for this meeting. It has touched me very, very deeply. It has furnished me with additional strength for my struggle."

"You are going to fight. You are going to put your heart beats, your energy and your brains into this movement for the same causes for which our fathers fought on the fields of battle."

Attacks Protection.

Our onslaught is upon the doctrine of protection in its entirety.—Thomas R. Marshall, Democratic governor of Indiana. Same old onslaught in the same old way. Remember '92.

Franklin county Republican workers are especially encouraged by the outlook this year.

PRESENTS HIS CAUSE.

Senator Beveridge Puts Issue Up to Indiana Voter.

It is said that great sums of money are coming into Indiana to defeat me. I advise the sources of this corruption fund to save their cash. Indiana's voters cannot be bought before election and Indiana's legislature cannot be bought either before or after election. Let the interests who are parting with their currency, including the tobacco trust, "put that in their pipe and smoke it."

To deceive the people certain lags of politics in both parties have circulated the story that, even if the legislature is Republican, it will not return me to the senate. I denounce that slander of our Republican candidates for the legislature. I decline to permit that fraud to be practiced on the people. Let every voter know that every Republican member of the legislature will vote for me—not a man of them is or will be purchasable. Indiana in 1911 will not be Illinois in 1909.

And I say now that every Republican who thinks my opponent will give the people better service in the senate than I, owes it to himself to vote for the Democratic candidates for the legislature, and any Democrat who believes that I will give the people better service than my opponent owes it to himself to vote for the Republican candidates for the legislature.

I ask all voters to be citizens first and partisans afterward—to vote for their families and their country rather than for their bosses and their party. If that means a vote against me, I accept it regretfully as a rebuke of my service; if it means a vote for me, I welcome it gratefully as an approval of my work.

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

WHAT ARE YOU PAYING?

THIS is a very important question. How many of you who run charge accounts and use telephones and delivery boys exclusively to buy your groceries know what you are paying? If you knew you could save from 20 to 100 per cent. would you change? I'll venture to say I can save you that amount if you will only allow me to. I had 2000 customers in my store last week, were you among them?

Below please note some special prices.

THEATRICAL COMPANY

Presenting "Beverly" Pleased a Large Audience at Majestic.

The theatregoers of the city were given another delightful play Thursday evening, which proved a pleasure to all who attended. The play, "Beverly" was dramatized from George Barr McCutcheon's clever novel which has been read with much interest.

The members of the company were very good in their respective parts, and many compliments have been given upon the manner in which the characters were interpreted. The costumes which were used were very attractive and the large amount of scenery which was carried by the company added greatly to the play.

REAL WINTER WEATHER

Makes Introductory Bow In Very Blustering Manner.

The first real winter came in a bunch, and today there has been snow storms and blustering weather galore. The first snow came about 9 o'clock this morning and continued at various intervals during the day. The temperature fell to 28 degrees Thursday night and there was considerable frost and ice.

The weather man predicts that the cold weather will continue for several days and forecasts a killing frost for tonight. Very little damage will be done to the farm products by the cold weather as most of them have advanced far enough that they will not be injured. Some of the late corn, however, may be damaged to some extent.

One year ago today the weather was very pleasant and the sun was out bright and warm the entire day. If the present indications foretell the character of the coming winter the coal dealer can feel assured that he will do a good business during the next four months.

BOY FINED

For Slashing Another Youth With a Pocket Knife.

Tuesday night after the show Millard Corthum and Jesse Peacock had a quarrel which ended with Corthum cutting Peacock in the shoulder with a pocket knife. The boys are about fifteen years of age. Corthum was arrested today by Marshal Abell and was fined \$1 and costs by Mayor Swope. His father, William Corthum, stayed the fine.

A Bit of Translation.

The difficulty of avoiding bad blunders when one is translating from English into such a language as that of the Micmac Indians of Nova Scotia must be very great, says a writer in the London News. We hear from the Bible society of a curious case. In the first edition of St. Matthew in Micmac the translator found when he came to revise it that in chapter xxiv. 7, instead of "Nation shall rise against nation" he had written, "A pair of snowshoes shall rise up against a pair of snowshoes." And yet there was only one single letter misprinted—naoktukumiksijik (a nation) having been displaced by naoktakumiksijik (a snowshoe).

Cholera Morbus.

"Cholera morbus" is a term with a curious history," says the London Chronicle. "To our forefathers 'cholera' meant not necessarily a disease, but one of the four 'humors' present in every human body, as the bilious humor, excess of which made a man 'choleric.' 'Cholera' and 'cholera' in fact, meant just the same thing. So the comparatively mild ailment which we know as 'English' cholera was referred to as the disease cholera or 'cholera morbus,' in order to distinguish it from the other sense of the word. Much later, when Asiatic cholera was introduced to the alarmed notice of this country, 'cholera' got transferred to it."

A Queer Old Word.

"Trug," according to Dr. Wright's Dialect Dictionary, is used to denote various measures in different parts of England. In Yorkshire it means an oblong wooden trough for milk; also a milking pail. In Cumberland it is a wooden box used for carrying coal or peat—in fact, an overgrown or exaggerated coal scuttle. In Oxfordshire it is a kind of basket used by gardeners, and in several counties a "trug" is a measure of which three go to make up two bushels; hence "trug corn" or wheat signifies a measure of wheat allowed to a clergyman as a kind of tithe. "Trug corn" was payable at Leominster as late as 1866.—London Standard.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
